Analysis for Business Systems

Enterprise Systems

IT Infrastructure and Emerging Trends

May 28, 2019

Muhammad Amin Nadim

has successfully completed the online, non-credit Specialization

Information Systems

This specialization enabled a learner to take a business problem, conceptualize an IT solution, define the specifications of the IT system, and evaluate enterprise system options or develop a custom solution, to address the business problem. Learners completed a course project for each of the four courses associated in this specialization.

Information Systems
Specialization
Information Technology
Infrastructure and
Emerging Trends
